

REMARKS

This Preliminary Amendment is to delete the multiple dependency of claims under U.S. patent practice. New claims 9 and 10 have been added. No new matter has been added. Only a cursory review is required by the Examiner. Examination on the merits of the application is requested.

In addition, Applicants' Korean representative had, in addition to the PCT-WO publication, provided a typed 18 page paper, referred by them, as English language specification; it is the title of that paper which is being changed herewith (per their instructions).

Respectfully submitted,
